Some nouns are **male** while others are **female**. This feature of nouns is called their **gender**.

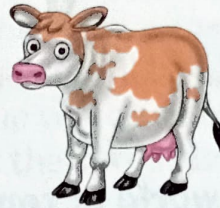

father

mother

bull

cow

stag

doe

The noun *father* refers to a male, whereas the noun *mother* refers to a female. We have males and females among animals, too. For example, the nouns *bull* and *stag* refer to males while the nouns *cow* and *doe* refer to females.

Instead of *male* and *female*, in grammar we use the words **masculine** and **feminine**.

A Choose the nouns of **opposite gender** from the box and write them in the space provided. Theresa Day.com

grandpa	goose	gentlemen	monk
landlady	lioness	uncle	goddess
